

## Lawrence Weston: A No Place Left Behind Case study

In August 2020 the Create Streets Foundation launched No Place Left Behind, the Commission into Prosperity and Community Placemaking. It sought to identify and develop policy and practice that enables regenerative development in 'left behind places'. Lawrence Weston is a post-war housing estate on the north west outskirts of Bristol. Ambition Lawrence Weston was established in 2012 by a group of residents who wanted to make the area a better place to live, after a decline in local services.
